This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

VERLAG DER PUSTET'SCHEN BUCHHANDLUNG.
(C. PLEUGER.)

Unter den Vermächtnissen eines Volkes an seine Nachkommen sind, wenigstens unter den sichtbaren, keine bedeutenderen aufzuzeigen, als die Denkmale seiner Sprache. Sie weisen dem Volke seine Stelle unter den Völkerstämmen und seinen Zusammenhang mit den Familien der Jetztwelt am deutlichsten und sichersten an. Darum gibt es nicht wohl Einen, der, um sein Volk und dessen Geschichte sich kümmernd, dabei kalt gegen die schriftlichen Reste seines Volkes seyn könnte. Der Gelehrte, welcher sich eine Anschauung der Fortschritte und des geistigen Gepräges eines untergegangenen Geschlechtes verschaffen will, wühlt nach Leichensteinen, durchstöbert die Mumiensärge, spürt im Schutte der Tempel und Paläste, um Spuren von Zeichen zu entdecken, die ihm ein tönendes Wort gleichsam in der Versteinerung überliefern, und wie sehr sie sich hinter Bildern oder geheimen Zügen verstecken, Sinn und Bedeutung nebst den Lauten zu gewinnen, bietet man allen Scharfsinn, alle Gelehrsamkeit auf. Selbst dem geistigen und Verwandtschaftsverhältnisse eines lycischen Volksstammes, der doch nie in der Weltgeschichte eine hervorragende Rolle gespielt hat, sucht man durch Lesung seiner wenigen Schriftreste auf die Spur zu kommen. Wenn ein so tief in unserem Herzen begründetes Streben, das Unerkannte auch bei dem Fremden, in Hinblick auf das gesammte Band der Menschheit es als bedeutsam erkennend, rastlos an den Tag zu fördern und in ein Besitzthum geistiger Errungenschaft zu verwandeln, bei den begabteren und erregteren Forschern hervortritt; wie weit mehr muss jedes Alter und jeder Stand die Rede des eigenen Volkes, die frühere Gestaltung seiner Sprache, als einen ihm besonders nahe liegenden, hochwichtigen Gegenstand seiner Kenntniss und seiner Beachtung ansehen? Dem Deutschen nun ist kein älteres, kein in jeder Hinsicht bedeutenderes Denkmal aus dem älteren Leben seines Volkes hinterlassen, als die ehrwürdigen

gothischen Bruchstücke der Uebersetzung der heiligen Bücher — eine Gabe, welche die Gottheit unserm Volke erhalten hat zu seinem Ruhme und zu seiner Erbauung, eine Gabe, bei deren Betrachtung zweierlei Gefühle unsre Brust durchziehen, eine immer wachsende Trauer über den Verlust des Ganzen, das uns so wohlthuend aus diesen Bruchstücken anmuthet, und eine mit Dank gegen die gütige Vorsehung verbundene Bewunderung, dass aus den Trümmern von Jahrhunderten ein solcher Reichthum von Bruchstücken zu uns gerettet wurde, deren jedes auch im kleinsten Umfange, waren die übrigen verloren, ein undenkbarer Schatz wäre; ein Schatz, nicht blos für die Forschung, für die Vervollständigung der Geschichte unseres Volkes, sondern auch darum ein Schatz, weil einem in jeder deutschen Brust erwachenden Verlangen Befriedigung wird, das, je länger wir mit den alten Deutschen uns beschäftigen, um so dringender wiederkehrt. — *Sprechen* möchten wir die grossen Ahnen hören, die überall, wo von ihnen recht gesprochen wird, uns mit Liebe und Achtung erfüllen und eine gewisse Sehnsucht unmittelbarer Bekanntschaft mit ihnen regen. Desshalb legt sich auch bei dem ersten Vortrage oder der frühen Lesung unserer Geschichtsbücher der Jugend Nichts so heimlich und so stillvertraulich an das Herz als das gothische „Vaterunser!“ — und umgekehrt, Nichts tritt mit so viel frommer Scheu, gemüthlicher Zurückhaltung und geheimer Freude wieder auf die Lippe. Wie wärmt mich die Erinnerung an jene Stunden, wo in der öffentlichen Schule oder am häuslichen Herde Knaben und Mädchen, Jünglinge und Jungfrauen, auch solche, die nie eine fremde Sprache lernten, diese fremden und doch so heimisch ansprechenden Laute, die sich von selbst und ungeheissen in ihr Gedächtniss prägten, mit jungfräulicher Scheu wiedergeben hörte, als fürchteten sie den hehren Schatz zu entweihen, der nur in dem Schleier stiller Gefühle sicher geborgen wäre. Wie tausendmal lieber gönnte ich der jugendlichen Seele dieses Kleinod meines Volkes, das älteste deutsche Gebet, als so manchen der Fremde alter oder neuer Zeit entlehnten Flitter, der, wenn die Zeit der Prüfung kommt, nicht helfen und nicht trösten kann!

Wo der Zug des Theiles so mächtig auf das Gemüth wirkt, da wird wohl auch bald der Wunsch nach dem Besitze der ganzen Erbschaft laut. Die bekannten Lesebücher befriedigen wieder nur die Begierde mit Bruchstücken und ihre Proben möchten die Meinung aufkommen lassen, als sei das Ganze nicht der Art, dass man es der Jugend oder überhaupt dem gesammten deutschen Volke vorsetzen könne, insofern noch Niemand daran gedacht hat, dasselbe in einer Weise, dass es Jeder auch bei mässigen Glücksgaben sich anschaffen könnte, in seiner bisher angewachsenen Vollständigkeit zu bieten. Und doch ist so vielfältige Aufforderung da, auch den ausserhalb des regsten Kreises der Sprachforscher Stehenden, auch den deutschen Jünglingen den Zugang zu dieser Urquelle leicht möglich zu machen.

Ich wüsste zuerst zur Nährung des vaterländischen Sinnes keine bessere Speise, als den Genuss dieser unserer ältesten Schriftwerke. Wer an ihnen sich labt, fühlt in sich die Ueberzeugung wachsen von Tag zu Tag, dass jene Gothen, deren Staatsmacht ihm frühzeitig Achtung abgewonnen, auch wirklich so geistig gross dastanden, dass sie auftraten als würdiges Werkzeug der Vorsehung, die römische Welt wegzuräumen und auf tiefere Grundlage eine neue Zeit aufzubauen. Jener sich so leicht fortpflanzende Wahn von Rohheit und Ungeschlachtheit jener Männer zerrinnt beim Anblicke einer Sprache voll Kraft und Gesetz, voll alterthümlicher Würde, gleichebenbürtig dem Sanskrit und dem Griechischen und Lateinischen, stehend als Mittelglied zwischen dem Indischen und dem Europäischen, dem gewählten Felde der Bearbeitung ausreichend gewachsen. Die Achtung steigert sich bei der Betrachtung der ungezwungenen Haltung zwischen knechtischem Anschluss und abschweifender Willkür mit besonnener Freiheit. Was das Christenthum nur an erschöpfenden Ausdrücken zur Bezeichnung seiner Begriffe und neuer Lebensrichtungen auf dem sittlichen Schauplatz verlangt, — der Gothe giebt es vorhanden aus seinem Sprachvorrathe, oder bildet Ersetzendes in der einfachsten Weise.

Aber es mag sich auch der christliche Sinn erfrischen, das christliche Gemüth sich erwärmen am Worte der Ahnen.

Nicht ohne Bedeutung erscheint noch vor dem Sonnenaufgange des germanischen Tages, eben bei dem Aufsteigen der verwirrenden Nebel der Völkerwanderung der greise Altvater mit seinem von Gottes Leben und Geist durchwehten Buche, in dem Priestergewande des Heilandes, der Mitwelt und der Nachwelt seines Volkes zurufen: „Wen dürstet, der komme; und wer will, nehme Wasser des Lebens umsonst."

Dem deutschen Volke kündet sich in diesem Bilde die Bestimmung seines Daseyns und die Bedingung seiner Grösse und seines Falles an: das Christenthum hat ihn aus dem Zustande einer kräftigen Kindesnatur über ein thatenreiches Jünglingsleben hinübergeführt, und das Grösste, was er gebildet und gewirkt, dankt er seiner Begeisterung für dasselbe. Noch wird demnach der Enkel den Worten seines Ahnen lauschen. Ohne Zweifel kommt es sehr viel auf den Mund an, aus dem uns eine Wahrheit zuströmt. Es haben die Sprachen nach ihrer Eigenthümlichkeit verschiedene Gewalt über uns: die eine zieht an, wo die andere uns kalt lässt. Und so kann Manches in diesen heiligen Büchern herzlicher uns anregen in gothischen Lauten als in irgend anderen. Gewiss, jene Stellen von der Liebe und von dem Heimweh in den Briefen an die Corinthier üben hier eine wunderbare Anziehungskraft. Dergleichen aber Vieles zu bezeichnen, ist misslich, weil den Einen dieses, den Anderen Jenes mehr fesselt.

Ueberflüssig ist es endlich, von dem Gewichte dieser Bücher zu reden, wenn von Geschichtsforschung, von Sprachforschung die Sprache ist: denn letztere muss ganz und gar auf *Ulfilas* zurückgeführt werden: eine Forschung, die freilich durch die neueren Erscheinungen auf diesem Gebiete ziemlich dem Abschlusse nahe gebracht scheint, wodurch jedoch die Selbstanschauung der Quelle noch Keinem entbehrlich geworden ist.

Aus allen diesen Gründen schien eine Herausgabe der gothischen Schriftwerke für das grössere Publikum mir immer äusserst wünschenswerth. Mein Freund und College *Ign. Gaugengigl* hat, zum Theil durch meinen Einfluss bestimmt, sie unternommen. Möchte ihm dieselbe allseitig so gelungen seyn, wie mir sie im Geiste vorschwebte!

Doch über den Werth der Leistung zu urtheilen, ist hier mein Werk nicht; einladen aber will ich den deutschen Jüngling zum vertrauteren Umgange mit dem ehrwürdigen *Ulfilas*, ihm denselben nicht für Studium und Schule, sondern für seine Andacht und für die gemüthlichen Feierstunden empfehlen und ihn erinnern, auch hier zuerst das Himmelreich zu suchen: Denn alles Uebrige wird ihm dann zugeworfen werden. Gott thue das Weitere und erhalte unser Deutschland und seine christliche Kirche!

Vorliegende Arbeit spricht selbstständige Wissenschaftlichkeit nicht an. Was sie will, ist aber dennoch Grosses: *nehmlich die kostbaren Früchte des Geistes und der Ausdauer der zwei auf germanischem Sprachgebiete grössten Männer unserer Zeit Grimm's & Loebe's auch einem grössern Publikum zum Theil erreichbar machen.* Wie weit Solches schwachen Kräften gelungen, werden Kenner entscheiden. Der Text, des edlen *Loebe* Werk, ist möglichst rein, die Grammatik, resp. der grammatische Formenzeiger, des gewandten *Beilhack* Auszug aus dem gewaltigen *Grimm*, ist technisch vollständig. Das Glossar bündig; fern, was sich von selbst versteht, z. B. eigne Namen, leicht- oder nicht veränderte lat. und griech. Ausdrücke, davon gebild. Eigenschafts- und Zeit-Wörter; es ist so gehalten, dass es zugleich die Grundlinien zu einer allgemein geltenden neuhochdeutschen Orthographie abgeben kann. Diese Grundlinien bestehen aber in nichts Anderem als in möglichst bündiger Gegenüberstellung neuhochdeutscher dem Gothischen lautlich und begrifflich entsprechender Wörter. *)

*) Ihre volle Darstellung wird den I. Theil des im vorigen Jahre durch die Ambrosi'sche Buchhandlung dahier angekündigten grösseren Werkes „Göttlicher Ursprung der Sprache" unter dem speciellen Titel „Geschichte der deutschen Sprache" bilden.

Um der Sprachbildung und ihrer Begriffs-Entwicklung desto ungestörter folgen zu können, ist das den germanischen Urstamm tragende gothische Wort mit ausgezeichneter Schrift voran gestellt. Ihm folgen die zur selben Familie gehörigen Ableitungen mit gesperrt geschriebener Stammsilbe. Die äussern Ableitungs- und Abbeugungs-Elemente sind durch Striche vom Stamme fern und unter sich auseinander gehalten. Die hiebei etwa entstehenden Zweifel an richtiger Trennung lösen sich durch Beachtung der unmittelbar nachtretenden Weiterbildungen meist von selbst. Das Suchen der Worte geschieht nach den Stämmen ohne Rücksicht auf Zusammensetzung.

Blosse Resultate ohne wissenschaftliche Begründung sind hier desshalb gegeben, um Andere ohne Vorgriff zur Weiterforschung zu veranlassen, meiner Seits die vielen Abweichungen von *Grimm, Loebe, Diefenbach* und andern Meistern ausführlich geeignetern Orts rechtfertigen zu können.

Dass meine Ansicht übrigens nicht überall gleich fest und sicher steht, wird man bei einem so schlüpfrigen Boden wie dem der Etymologie natürlich finden. Manche werden Vieles besser wissen, als sie es hier behandelt finden. Solche bitte ich um gütige Nachsicht und um freundliche Belehrung. Wird mir Beides zu Theil, und findet meine Arbeit als Beitrag zur Beförderung der Theilnahme an unserer ältesten Literatur den gewünschten Beifall, so hält sich für seine Bemühung reichlich belohnt und zur Fortsetzung seiner Studien ermuntert

GRAMMATIK.

A. FORMENLEHRE.

Hochdeutsch, Niederdeutsch, Niederländisch, Angelsächsisch stehen sich in engem Verbande. Anglsächsisches, (Sächsisches, Englisches) wird vom Nordländischen (Dänisch, Schwedisch, Isländisch) stärker berührt, als man ohne genauere Kenntniß zugeben mag. Hoch- und Niederdeutsch vermitteln das Fränkische. Das Friesische führt aus dem Dänischen in's Sächsische: so daß die gothische Sprache, weil mit dem Hochdeutschen innig verwandt, als Ausgangspunkt und Leuchte für alle Dialecte auf germanischem Boden erscheint.

1.

Ihre Elemente sind: a; i (ai); u (au); e; o, u; ai; au; ei; ei; iu.

* ai vor r u. h=ä; au vor dens. L.=o.
* ai=e; au=o.
h (g)= nhd. h (g); k=nhd. k, ch; g=nhd. g (k.); th=nhd. d; t=nhd. z, s; d=nhd. t. f.=nhd. f, v; p=nhd., pf, f; b=nhd. p.

* s; v=w; w=hw; l, n, r.

2.

Diese bilden die Worte der gothischen Sprache. Die Wortbildung geschieht durch innere Aenderung oder durch äußere Mehrung der sog. Wurzel. Der äußere Zuwachs tritt von vorne oder hinten als Zusammensetzung, oder nur hinten als Ableitung ein. Die Zusammensetzungs- und Ableitungs-Elemente sind aus dem Glossar zu entnehmen.

3.

Die Ableitungsbuchstaben sind zwischen Wurzel und Endung eingeschaltet und bestimmen jene näher. Sie selbst aber sind von nicht verwischter, aber dunkler Bedeutung.

4.

An die Ableitungsbuchstaben schließen sich die Endungen. Sie sind:

B. Einiges über die Wortfügung.

I. Der einfache Satz.

1. Die Pronomina und *ba* (beide) stehen in Neutro, wenn sie auf zwei Personen verschiedenen Geschlechtes sich beziehen. Luc. 2, 6. tho (Joseph und Maria) vesun jainar; Luc. 1, 6. vesun garaihta ba. — Adjectiva u. Participia stehen bei Subjecten verschiedenen Geschlechtes in Neutro. Luc. 2, 33. — Bei Collektivis tritt Constructio *κατὰ σύνεσιν*.

2. Die Frage wird bezeichnet a. durch Stellung und Ton; b. durch -u, welche Enklitika sich an das erste Wort des Fragesatzes anhängt; bei Compositis tritt es in die Mitte nach der ersten Compositionssilbe; bei Präpositionen mit Nom. an die Präposition. Mc. 10, 38. Joh. 13, 12. 18, 22. Mth. 9, 28. c. mit Rücksicht auf etwas Vorangegangenes ist das Fragewort *an*. Luc. 10, 29. 3. 10. — In der negativen Frage steht a. *ni* mit Ind. und *nu* mit Conj. Luc. 17, 18. b. *niu* bei erwarteter Bejahung = nonne; c. ibai etwa, doch nicht erwartet Verneinung; ibai-ni Bejahung. Nibai mit Conj. ist ironisch, doch nicht etwa. Rom. 10, 18. Cor. 1, 9, 4. — Joh. 7, 35.

3. In Rücksicht der Casus bemerken wir: 1) der doppelte *Acc.* steht a. bei nennen, heißen; b. bei halten, rechnen; c. bei nehmen, geben, berufen, machen, erklären u. s. f. — doch steht in den letzten zwei Fällen auch *du*. 2) Den Dativ haben viele Verba, die ein Nennen und Verbinden, ein Anhängen und Folgen, ein Bewachen und Bewähren, ein Verwenden und Verlieren anzeigen, selbst küssen, umarmen, rühren; dann beobachten, verstehen, gehorchen, erhören, verachten, vergessen, herrschen und dienen u. s. f. — Nicht wenige haben den Dativ und Accusativ zugleich theils mit einerlei theils mit verschiedener Bedeutung, worüber das Wörterbuch belehrt. — Der Dativ dient zugleich als Instrumentalis und Modalis auch als Causalis bei faginon sich freuen, und andern. Auch der griech. Acc. der Beziehung wird durch den Dat. ausgedrückt. Mc. 8, 36.

4. Den Genitiv Possessiv haben sein, werden, eigen, heilig seyn, schuldig, werth, frei, los, fremd seyn; reinigen, heilen, frei machen; dann steht er in allen Fällen der Theilung eines Ganzen. Joh. 6, 11; 26. — Bes. bei haban u. visan; bei Theilnehmen, berühren, nützen, gebrauchen, kosten, versuchen; voll und leer seyn, sättigen und bedürfen. Der Gen. obj. steht bei begehren, bitten, fragen, erwarten, sorgen, sich kümmern; helfen, schonen; erinnern und gedenken. Als Causalis findet er sich bei sich schämen, verwundern, sich beklagen.

Bei Ortsbestimmungen stehen Adverbia und Präpositionen. Doch steht auf die Frage wohin auch der Gen. Mc. 4, 35. Luc. 15, 15. 19, 12. Die Zeitbestimmung wann? hat den Gen. in *nahts* und *dagis*, sonst den Dat. (vintrau im W.) bes. mit näheren Bestimmungen (mela und weilai e. Gen.) Mc. 1, 32. Wie lange? wird durch den *Acc.*, andere Zeitbestimmungen werden durch Präpositionen ausgedrückt. — Wie alt? drückt der Gen., wie weit? der Acc. und *ana* c. D., wie theuer? der Dat. oder *in* c. Acc. aus.

Den Comparativ bestimmt näher *Filau*, und *Filu* um Vieles; *wan*, *wan Filu*, und *wan Filu* um wie viel; *thâmma* um so viel, *the* desto. Als beim Compar. heißt *thau* oder es wird durch den Dativ bezeichnet. Die Präpositionen werden vom Namen getrennt durch Enklitica z. B. abu (für af-u thus; durch Partikeln

than, raihtis, jah, auk; selbst bei trennbaren Präpos. in der Composition vom Stamme: biugitai (Luc. 18, 8.) gaulaubjats Mth. 9, 28. Mc. 8, 23.

Der Infinitiv steht als Objekt in den meisten Fällen, wo er im Neuhochdeutschen steht; eben so bei der Absicht (mit oder ohne *du*). Ein Acc. c. inf. steht nach Verbis sent. et dicendi; nach machen, thun, bereiten; es geschieht, gefällt, geziemt sich, es ist leicht, besser, Zeit ꝛc. — Auch der Folgesatz steht manchmal im Acc. c. inf. Mc. 4, 1., sonst Svaei.

Von Ellipsen merke man wa uns jah thus; wa mik sc. karist (was kümmert es mich.)

Joh. 5, 46. 14, 2; doch fehlt auch *thau*. — *Jaththe* — *jaththe* Sive-Sive. Nisi außer heißt *niba*.
